## DIGITALLY PHOTOGRAPHING YOUR ART WORK

Do you want to learn how to use your digital camera to photograph your art work for exhibiting in shows and for printing? If so, this workshop is for you!

Proper lighting, camera set up, and placement will be demonstrated. The instructor will help you determine the proper setting for your camera using natural lighting. Art work you want to photograph must be unframed, and not matted. After your photos are taken, Carmen will use a lap top to demonstrate proper editing programs to achieve the perfect image for printing, entering a show, or web use.

Supplies: Your camera, a tripod, and art easel (If you don't have an art easel or tripod, we'll share) Bring art work that you want to photograph, and a notebook for note taking.

Maximum of 12 students
