Joe is a distinguished art educator who has been teaching workshops nationally and through-out Canada for many years.

The students will be given projects to work on, and these are designed to bring the students to a higher level of achievement during the 3-day workshop. There will be short demos on how to solve problems in the paintings, followed by individual attention to aid each student's success.

A few of the things you will learn in Joe's workshop are:

- * How to improve your compositions
- * Techniques to take the guesswork out of how to move your colors to create balance and movement
- * How to Control the moisture on your brush and your paper
